

# Powerful Executive Presence

for senior and junior executive  
teams and individuals

## problems solved

- ✓ Egos are getting in the way of results
- ✓ Not being fully engaged in active listening
- ✓ Creativity and Innovation are stifled due to poor leadership
- ✓ Lack of confidence in communication and appearing indecisive

## benefits

- + Increase listening skills
- + Increased Confidence
- + Collaborative communication skills
- + Increased Engagement
- + Understanding how true leaders lead

## how we do it

The team will participate in specifically chosen exercises and activities that are designed to achieve goals that cannot be achieved alone. Each participant will have the opportunity to take on a leadership role while the focus will be on total collaboration. We take this proven approach and use it to accomplish team and organizational goals and objectives. The exercise and activity portion of the workshop is followed by role playing in “real life” situations relevant to the specific organization.

---

These workshops come in segments of 2 hours, 3.5 hours (half day), and 6 hours (full day) depending on group size and goals.
